

Installation instructions for Rear Set Suzuki GSX-R 600/750 year 2006 - 2010 Part nr. 662

We would like to thank you for purchasing PP Tuning rear set. Please take a moment to read the assembly instructions. Following these instructions will ensure trouble free operation of this product and extend its working life.

Left side installation

Remove the original rear set. Install the shift lever in the same place as the original shift lever. Screw on the shift lever and connect it with shift rod. To connect it use OEM Joints for shift rod, which are on original rear set.

Rear set are available for both, stock (picture number 4) and reverse shifting as well (picture number 5). You can match the reverse shifting by turning the shifting joint (spacer) on the shifting shaft of 180°.

OEM SHIFTING

REVERSE SHIFTING

Right side installation

Remove the original rear set on right side and mount the rear set according picture 6.

And the last important information: Enjoy this product and drive carefully!
